

Developing Purchasing Policies, Processes and SLAs

Why Attend

Purchasing policies, processes and Service Level Agreements (SLAs) guide the activities of purchasing professionals and their business partners, and provide a functional and moral compass. To ensure effectiveness, these documents must be aligned to the strategic intent and the broader environment of the organization. They must also be written using an appropriate language level and style. In this course, we will demonstrate how to develop such policies, process flowcharts and SLAs in a simple, specific and appropriate style that meets the requirements of a modern organization. We will also illustrate how performance against processes and SLAs can be measured and analyzed for continuous improvement.

Course Methodology

This course uses a highly interactive workshop setting involving activities to plan and draft policies. We will also be designing, mapping and evaluating processes as well as drafting SLAs.

Course Objectives

By the end of the course, participants will be able to:

- Outline the strategic role of purchasing in the organization
- Practice the latest business writing techniques suited for the development of policies, processes, procedures and SLAs
